²Jilin Ginseng Academy, Changchun University of Chinese Medicine, Changchun, 130117, China

Supplementary Table S1. Resources of main reagents and equipment.

Main reagents and equipment	Resources
Hematoxylin and eosin (H&E) stain solution	Beijing Beyotime Biotech, Beijing, China
Corticotropin-Releasing Hormone (CRH), Adrenocorticotrophic Hormone (ACTH) and Corticosterone (CORT) enzyme-linked immunosorbent assay (ELISA) kits	Jiangsu Meimian Biotech, Jiang Su, China
BCA Protein Assay Kit	Solarbio, Beijing, China
BDNF, Trosine kinase B (TrkB), Cyclic adenosine monophosphate response element binding protein (CREB), Glucocorticoid Receptor (GR), Mineralocorticoid Receptor (MR) and reduced glyceraldehyde-phosphate dehydrogenase (GAPD)	San Ying Biotechnology, Wuhan, China
Gas chromatograph	Agilent Technologies, Wilmington, DE, USA
Chemiluminescence imaging system	TECAN, Männedorf, Switzerland
Embedding center and cooling stage, automatic water bath, automatic slide dryer	Taiwei Technology, Hubei, China
Slicer, Full-wavelength microplate reader	Thermo Fisher Scientific Inc., Waltham, MA, USA
Electrophoresis system, transfer tank	Bio-Rad, Hercules, CA, USA
